Compliance with the following standards:

ASME A112.19.5/CSA B45.15-2017, Flush valves and spuds for water closets, urinals, and tanks

Identification:

Each flush valve shall be permanently marked with the following information; marking shall be visible after installation.

- Manufacturer's name or trademark or, in case of private labeling, the name, trademark, or other mark of the customer for whom the fitting was manufactured.
- Model name or number, or part number
- ICC-ES PMG listing mark.

Packaging for replacement flush valves and flush valve seals shall be marked with the following:

- the manufacturer's name or registered trademark or, in the case of private labeling, the name of the customer for whom the flush valve or flush valve seal was manufactured;
- the model part number(s) and identification of the manufacturer(s) of the flush valve(s) or flush valve seal(s) it is intended to replace; and
- where an intended design is a general or universal replacement product for flush valves or flush valve seals, package marking shall indicate this to satisfy the requirements of Item b).

Installation:

Each flush valve shall be installed in accordance with the manufacturer's installation instructions and the applicable codes.

Adjustable replacement flush valves and flush valve seals shall include installation instructions required to maintain the original flush volume of the toilet(s) for which they are intended to be installed.

Model:

Maestro

Conditions of Listing:

1. The SIAMP's flush valves recognized in this listing must be installed in accordance with the manufacturer's published installation instructions and the applicable codes.
2. The SIAMP's flush valves recognized in this listing are manufactured in Viet Nam under a quality control program with annual inspection by ICC-ES.
